**Bio:** *Susan Edginton is an artist located outside of Charlottesville, VA. She has always had a passion for creating an emotional connection with the viewer and her work. The love of animals, their character, and the connection we all have with them challenges her to capture that feeling. The unmistakable bond we have for and with our pets, as well as any animal and that special look in their eyes. As an artist, she tries to leave a little of herself in each piece she creates, with watercolor, pen and ink, graphite, colored pencil and photography.*

*Susan received a B.A. in Fine Art/Commercial Art Minor, attended the Art Institute of Houston - graduated, and has an A.A. in Photography. More of her artwork can be viewed here: <https://susan-edginton.pixels.com/>*

*Susan enjoys working on commission. If you are interested in something special, she can be reached at: [seescenes@aol.com](mailto:seescenes@aol.com)*
